

GROOMING RELEASE FORM

Lois Johnson

4016 E Madison Street | Seattle, WA 98112 | 206-324-4050

I want your pet's experience here to be as pleasant as possible and I will do my best to make them comfortable while here.

Pets with matted coats need extra attention. Heavily matted coats can trap moisture and cause mold, fungus or bacteria to grow and cause skin irritations, itchiness, and inflammation. Mats can be very difficult to remove and I believe the humane thing to do is shave the coat down if your pet is severely matted. This will be a short clip which removes all the matting. There is a chance that your pet's skin will become more irritated during the grooming process. I am very careful, but the possibility of nicking the skin is there, and you need to be aware of this and give permission for me to proceed.

If fleas are found on your pet(s), it is Madison Park Veterinary Hospital's policy to treat with Capstar, an oral tablet that kills fleas for 24 hours after ingestion. We highly recommend you continue with a flea treatment at home (e.g. Sentinel, Bravecto, etc).

We reserve the right to refuse service to customers whose pets may pose a threat to our employees and other pets left in our care.

I hereby release Madison Park Veterinary Hospital from any responsibility of the above-mentioned process and any and all medical problems that may be uncovered and/or may occur during grooming or after grooming.

Should my pet need veterinary care during or after the process, I agree to pay any and all veterinarian fees for my pet's care.
